

DATE: Tuesday, May 19, 2020
TO: Individuals or entities seeking nursing facility placement for individuals who are not suspected or confirmed to be infected with Coronavirus Disease 2019 (COVID-19), including Acute Care Hospitals
RE: Notice of Dedicated Care Capacity at Nursing Facilities for Patients who are Not Suspected or Confirmed to be Infected with COVID-19

A. Overview

As part of its ongoing efforts to expand existing health care capacity during the COVID-19 pandemic, the Commonwealth is issuing this notice to assist acute care hospitals and other individuals or health care entities with the identification of nearby facilities that are accepting patients who are not suspected or confirmed to be infected with COVID-19 for skilled nursing levels of care. A number of facilities have informed the Executive Office of Health and Human Services (EOHHS) that they are able to provide dedicated space and staffing to serve individuals that are not suspected or confirmed to be infected with COVID-19 and need ongoing nursing facility level of care.

This notice is intended only to offer guidance and serve as a reference, and does not contain any requirements for providers, issue updates to current MassHealth service rates, or endorse specific institutions or referral relationships. Massachusetts posts a “Notice of Dedicated Care Capacity at Nursing Facilities for COVID-19 Patients” available [here](#). More information about Nursing Facilities with Dedicated COVID-19 Isolation Spaces is available [here](#).

This notice will be updated twice per week, with new versions being posted each Tuesday and Friday by 4pm E.T.

B. Nursing Facilities with Dedicated Spaces Accepting Patients who are not Suspected or Confirmed to be Infected with COVID-19

As of the date of this memo, the following facilities have informed EOHHS that they have established a separate space within their facility to care for individuals who are not suspected or confirmed to be infected with COVID-19 and currently have capacity to admit these individuals that need ongoing care at the nursing facility level of care:

Provider Name	Contact Information	Address	Region
Agawam Healthcare	(888) 243-4646	1200 Suffield Street, Agawam, MA 01001	Western
Alliance Health at Abbott	978-535-8700 X104	28 Esses St. Lynn MA. 01902	Northeast

Alliance Health at Baldwinville	978-939-2196	51 Hospital Rd, Baldwinville, MA 01436	Central

Worcester Rehab and Health Care Center	508-860-5000	119 Providence St, Worcester, MA. 01604	Metro West

C. Hospital Coordination Expectations

Facilities are expected to continue usual protocols concerning transfers of patients.

Per Massachusetts Department of Public Health [guidance](#) published on April 29, 2020, long-term care facilities shall not condition admission on COVID-19 testing or test results. Individuals discharged to a long-term care facility from a hospital should be tested for COVID-19 at the hospital, if a test is available. If a test is not performed before hospital discharge, the long-term care facility should test the resident upon admission, if a test is available.

Awaiting the test results should not delay an individual's discharge from the hospital to the long-term care facility. While awaiting the test results, the long-term care facility should quarantine the resident, treating him or her as a presumptive positive COVID-19 case. If the test result is negative, the resident must remain in a quarantined space, if available for a fourteen day period after admission to the long-term care facility. If the test result is positive the resident should be moved to dedicated COVID-19 space.
